JERKY WITH ATTITUDE

Sweet Teriyaki

As soon as you tear open your bag of KatzAzz Teriyaki Jerky, your sense of smell will be rewarded with a pleasant hint of spicy smoked asian influence. Take a moment to inhale deep as you reach in for a hand crafted bite size chunk. Your first bite confirms what your sense of smell has just suggested as the flavour reminds you of a smoked asian spice blend, and the texture is so very pleasant and satisfying to chew. You will feel a satisfying yet gentle after-taste of delayed spicy heat. Don't be surprised if you're not able to stop reaching into the bag for another and another. If you are a fan of all things Teriyaki, welcome to KatzAzz Jerky Teriyaki. Fortunately, all KatzAzz Jerky bags are resealable and can be enjoyed for up to 72 hours later

www.katzazzjerky.com

Ghost pepper is grown in north east India, and is one of the worlds hottest chili peppers. Buck and I both like spice and so Ghost Pepper was our exotic pepper of choice when we blended this awesome flavour. We dialled the heat down by adding other less potent spices so that we could modify the name to include the word 'MILD' Ghost Pepper. The heat is delayed but makes itself very apparent after about 15 seconds. Perfect chewy snack to enjoy with a favourite beverage. If spicy is your thing, this will be the one to keep close to the action. Jerky with Attitude !

Buck and I don't have a flavour called 'Original', but if we did, it would probably be a bit like our Cracked Pepper. The texture and flavour of our Cracked Pepper reveals a deeply naturally smoked and generously seasoned with several blends of international pepper corns. If you enjoy some deep peppered spice in your favourite snack, this is the perfect choice. Connoisseurs of fine smoked meat snacks are especially drawn to this flavour. Our jerky is naturally smoked with real specially selected wood stock. Don't crack the bag open until you're ready to empty the whole thing. This flavour is dangerously habit forming !

SMOKEHOUSE MAPLE BACON

Oh the smell! This flavour doesn't seem to require much of a description at all! Here is the setting ... After an amazing sleep with fresh air and quiet surroundings, you are awakened by the most incredible smell coming from the kitchen. This is the unmistakable sound and aroma of sizzling bacon and maple smoked breakfast sausages. Hot pancakes with thick pads of butter and a river of Canadian maple syrup. Get the picture? Now rip open your bag of Smokehouse Maple Bacon Jerky, experience the event just described. This flavour is absolutely amazing and is one of our most popular for obvious reasons (mostly because YOU CANNOT STOP REACHING FOR MORE) You won't want to run out of this flavour. While it's nice to share ... you're probably not going to.
